

Connecting people and places through GPS, mobile and wireless communication

Live monitoring with seamless maps

Real time monitoring of your vehicles' movements on our intelligent GPS enabled maps covering Sri Lanka. You can zoom in & out, pan and print the map for your reference.

Management Reports

View reports with details such as routes traveled, speed and the events. Reports can be printed and used for service quality performance.

Optional Features

Geofence features: Upon vehicle entering demarkated area your designated personnel will be notified immediately through SMS.

Ease of use

Our system is user friendly with 24x7 internet and mobile phone access. While you are on the move and internet is not available, agis TrackerLite empowers you to live monitoring of your movable assets on high resolution color maps at any time and from anywhere in the world via PDA phone.
